

## **PRESIDENT**

As we look over the past amazing Track and Field season and are preparing for the next one I am amazed at how fast the time has flown by. My second year as President of Saskatchewan Athletics has come to an end in a hurry. As I have said before I am honored to be part of Sask Athletics and Track and Field in Saskatchewan and am looking forward to the 2019-2020 track and field season.

Track and Field in Saskatchewan continues to grow and this can only happen with the ongoing support of coaches, officials, volunteers, families and of course the athletes. If we take a minute to think about the hundreds of people within Saskatchewan who are dedicated to the sport of Track and Field in a multitude of ways you can get a bit of an understanding of what it takes to keep the sport operating at the level that it does in the province. A massive thank you goes out to everyone involved in Track and Field in Saskatchewan over the last season as you have helped to make it an amazing one.

As you will see in the various reports submitted Saskatchewan athletes, coaches and officials competed and/or assisted and were successful in numerous provincial, national and international meets over the last year. Again I am very proud to be part of this and am excited for what this will do for future meets.

My involvement with Athletics Canada has opened numerous learning opportunities for me and has allowed me to expand my involvement in this sport beyond our cities and province. This in turn has allowed me to help others involved in this sport see beyond their club or city. All of this ultimately helps the athletes who are currently in the sport in Saskatchewan and the ones who will be involved in Track and Field in Saskatchewan in the future.

I would like to extend a huge thanks to Bob, Paul, Tanika, Laura, Janine and all of the Board members for their patience with me over the last year and for allowing me to be part of the sport of Track and Field. It has been an amazing year and I am certainly looking forward to the next one.
